Airstar lighting balloons for rescue and emergency operations

.....
CIVIL SECURITY - SEARCH AND RESCUE - HOMELAND SECURITY - FIRE BRIGADES - HIGH-RISK EMERGENCIES - EMERGENCY MEDICAL SERVICES - MILITARY
.....

WHY CHOOSE AN AIRSTAR LIGHTING BALLOON ?

With Airstar lighting balloons, you can light an area up to 24 000 m² in only 2 minutes

SAFER WORK ENVIRONMENT

- 360° of homogenous light
- Shadow-free light
- Glare-free light: less strain on the eyes, no blind spots
- Hot restrike lighting balloons
- Low tension LED lighting balloons
- Built-in pressure sensor: safety system automatically switches off if unit deflates

EASY TO USE

- Plug & play : self-inflating lighting balloons (45 seconds in average)
- Mobile: lightweight, easily movable thanks to specific cases on wheels (Pro-case)
- User friendly: installed and maintained by only 1 person
- Multi-functions: standalone, mounted on moving equipment or mounted on a backpack (hands-free equipment)

HIGH QUALITY

- Strong resistance to harsh conditions: rain, wind (up to 100 km/h) and dust resistance
- IP 54 and CE standards
- No blackout: multiple lamps
- Produced for long-term use: manufactured only with highest quality materials and components
- Resist to falls

AIRSTAR INTERNATIONAL NETWORK

- Inventor and world leader of lighting balloon technology since 1994
- Worldwide subsidiaries and distribution network
- Customer service close to you
- Shared network experience
